The Publication of our annual is one of the important extra curricular activities of our school. It provides a treasure book of "MEMORIES" for our student body.

The publication of "MEMORIES" is a little like life. It describes in picture and word story the complete picture of school life. It tells about the classwork and more serious aspects of student routine. But, like life, it also gives space to the frequent highlights of social activity, recreational pleasures, and athletic pursuits.

It is a record of both success and failures. That is as it should be for life is really a record of success and failure. No true book of life records success only.

If we realize that much can be learned from adversity and occasional defeat then we will be better prepared for the game of life. Determination, fortitude, will power, and initiative are valuable by-products gleaned in grappling with daily problems of success and failure.

If we look at this fine annual in this perspective it can be a book of greater meaning and value.

Congratulations to the Annual Staff and the advisors for the production of "MEMORIES", which contributes much to our school. I wish the Best of Luck to the graduating class of 1954. We hope you continue your interests in education and that you will use to your best ability the education which you have received in the past twelve years. Also, your aim in life should be nothing less than complete and worthy living.

Our schools should develop interests in the major fields of human activities as a means to happiness, to social progress, and to continual growth. Your success in school should be what you really desire and need.

May this book help to inspire students to have good school spirit, and to make proper use of their time while in school. This book will offer some of the greatest memories in your life.

Time is not likely to come to an end with our receiving diplomas on May 21, nor will EHS close her doors, knowing that there will never again be such a crop of geniuses from her halls (who said that?). But Elida High will miss the class that can boast of an abundance of intelligence, wit, and good fellowship--that's us!

We see ahead the door through which we must pass, but we do not hesitate to look back to the twelve years of mental, spiritual, and cultural growth which have directed us (pushed us, really) toward this door.

The Senior class took up its duties as rulers, with all the dignity and splendor of one accustomed to power. Speaking of dignity--have you ever looked into room 324 on Friday afternoons and noticed President Leis being counseled by our advisors, Ross and Workman? Miss Kes learned to take reports of class meetings so rapidly that our records are all verbatim (Saints forbid!). Her skill in taking class notes is exceeded only by her ability to wring from us tired old dollar bills.

In departing, a great big hearty "thank you" to our teachers and classmates for the memories.

A mother wished to enter her little girl in a modern kindergarten, but the child was only four and the age requirement was five.

"I think," said the mother, "that she can pass the five-year-old test."

"Well, we'll see," said the examiner skeptically. Then he said to the child, "Dear, just say a few words for me."

"Mother," demanded the four-year old, "does the gentleman want logically connected sentences or purely irrelevant words?"
